

An Android Based enterprise smart-force CRM

www.sudesicloud.com

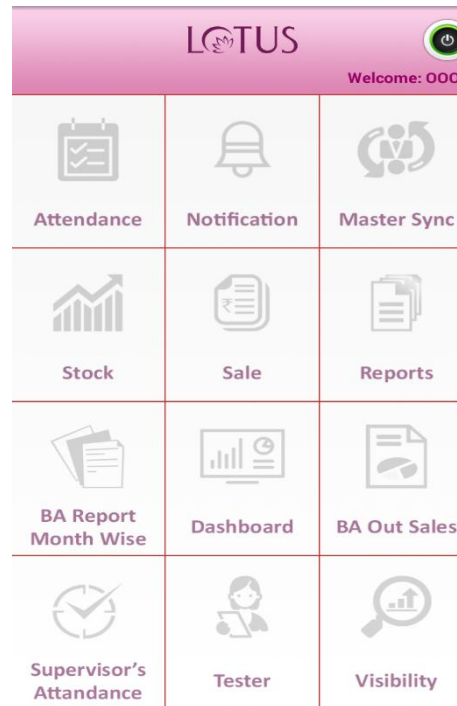

Installation & Uninstallation of APK

- Click on downloaded file. You find new page click on install button.
- Application installed in your device. Then click on open or done.
- If you click on open application will open.
- After app installed you check Unknown Source should be checked.
- If you click on done then go to the device menu and you find their lotus app.

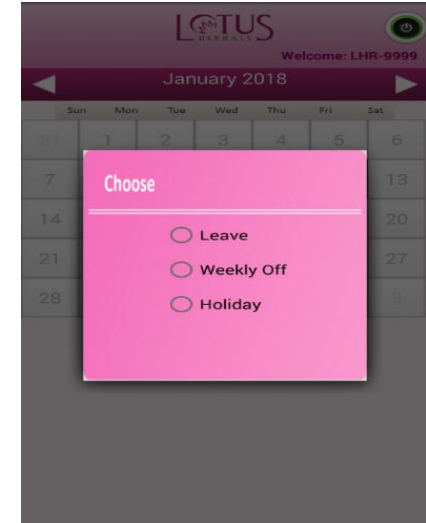

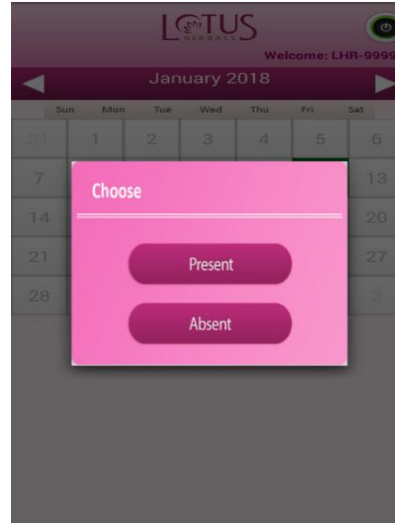

Login to the application

- Once launch the application the login window appears where the user needs to enter the user credentials given to them (for example: user-id = LHR-123 and password = 'password'), and after successful login user will be automatically redirected to home page.

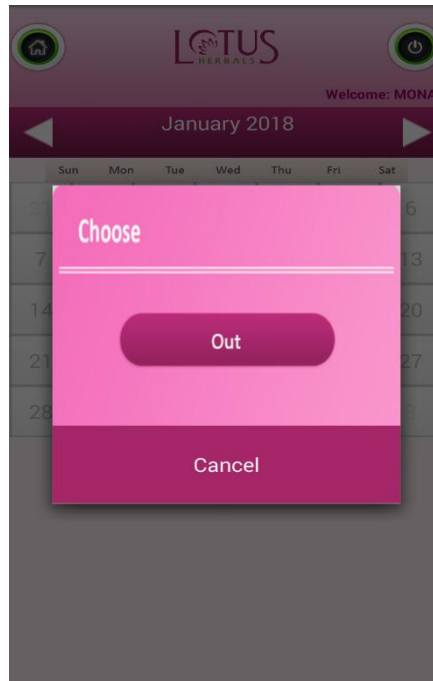

Marking Attendance(Present/Absent):

- After Successfully login attendance screen appears for marking attendance as Present/Absent. User needs to select current date only. Once the user marked as Present he will redirected into home page, and if the user marked attendance as Absent user will automatically logout from the system, and user won't be able to enter into system. User as to select reason for absent like Sick leave, Casual leave, Weekly off or Holiday.

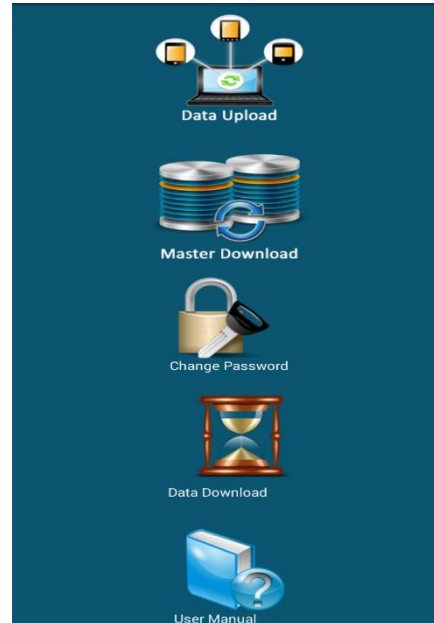

Out Time

- The above screenshot displays the option to punch you're out time at the end of day or your working hours.
- Every day once you complete your working hours to click on 'Out' button.

Master-Sync

- **Master Download:** Synchronize all the master data (e.g. Product Master Should be Updated accordingly).
- **Data Download:** Stock data need to be downloaded from server to get the closing balance which has been uploaded through Excel.
- **Data Upload:** All the transaction done like Sale, Attendance, Tester need to be updated on server.

Tester

The screenshot shows the Lotus Herbals Tester app interface. At the top, there's a pink header with the Lotus Herbals logo and a welcome message "Welcome: LHR-9999". Below the header, the title "TESTER" is displayed. A "Category" dropdown menu is open, showing options: "SKIN", "T Select", "SKIN", and "COLOR". The "SKIN" option is currently selected.

The screenshot shows the Lotus Herbals Tester app interface. At the top, there's a pink header with the Lotus Herbals logo and a welcome message "Welcome: LHR-9999". Below the header, the title "TESTER" is displayed. A "Type" dropdown menu is open, showing the option "SAFE SUN". Below the dropdown, there's a table with columns "SIZE" and "PRODUCT". The table lists four products with checkboxes for selection.

SIZE	PRODUCT
50gms	<input checked="" type="checkbox"/> LOTUS SAFE SUN KIDS SUN BLOCK CREAM SPF-25 50GM
50gms	<input checked="" type="checkbox"/> LOTUS SAFE SUN MATTE LOOK SUN BLOCK CRM SPF-40 50GM
100gms	<input type="checkbox"/> LOTUS SAFE SUN UV SCREEN MATTEGEL SPF-50 100GM
50gms	<input type="checkbox"/> LOTUS SAFE SUN ABSOLUTE ANTI

At the bottom of the screen, there is a yellow "Save" button with a floppy disk icon.

- On the Tester page user can send requirement of the product by selecting product category and product type and can save the details and saved Tester product will automatically appear in Report page and user can view the product details.
- And after data sync tester requirement will send to authorized.
